

New Requirements for 2008

All players will need to provide a copy of their birth certificate as proof of age. This requirement is only necessary with the first registration after January 2008. The birth certificate copy will be maintained on file and will serve for any future registrations.

All coaches must complete PA West Soccer's Online Risk Management Program & KidSafe System Background Check. The process only takes a couple of minutes and is one small step to try and better safeguard our children.

The website can be found at:
